COMPANY PROFILE

## INTRODUCTION

Faison Company Ltd is a locally registered company successfully delivering projects in diverse market segments. The company has earned recognition for undertaking projects, while making a difference for their clients and employees.

With a dedicated and competent team, Faison Company Ltd prides itself in completing construction projects timely and offer clients the accessibility and support of project execution with the stability of resources and personnel.

## WHO WE ARE

Faison Company Ltd consists of dedicated professionals in the construction industry keen on maintaining professionalism and honesty in their respective disciplines.

Our portfolio is testament to the fact that like minds given appropriate resource and creative space, produce impressive results.

## OFFICE

The company's offices are located in Hurlingham Plaza, Ground Flr, Argwings Kodhek Rd.

## OUR VISION

To become a leading reliable and effective partner to all the stakeholders in the construction industry driven by excellence and integrity.

## OUR MISSION

We are a market-focused, service-centred company that develops and delivers innovative solutions to our customers, consistently outperform our last project, and provides a dynamic and pleasant work environment for our employees.

## CORE VALUES

### CUSTOMER DELIGHT

We exceed customer expectations with quality products and services to create long lasting relationships.

### INTEGRITY

We shall be honest, truthful and reliable in provision of products and services to our customers.

### QUALITY

Provide quality solutions, which is essential to customers' growth and retention.

# OUR SERVICES

## **CONSTRUCTION**

For the successful execution of a construction project to occur, effective planning is essential, and we excel at this..

## **GENERAL SUPPLIES**

Faison Company Ltd provides supply of high quality general products sourced from reliable vendors.

## **ELECTRICAL INSTALLATIONS**

We provide electricity to any structure within a property's boundary lines, as well as installations such as back-up power, climate controls, wireless networks, energy-efficient lighting, fibre optics, telecommunications and security systems.

## **MECHANICAL WORKS**

Engineering requires an understanding of core concepts including mechanics, kinematics, thermodynamics, materials science, and structural analysis. Faison borrows heavily from these core principles along with tools like computer-aided design to aid in construction.

# OUR TEAM

Faison Company Ltd has been successful in retaining the services of highly respected consultants and subcontractors who have added to our success in delivering quality work.

Our company proudly carries with it a reputation for quality of work with a strong emphasis placed on our attitude and the manner of client relationship. Without this we would not have achieved the level of success we have enjoyed in moving to where we are as a key service provider to the real estate industry.

Our repeat business in this sector is as a result of developing strong working relationships with our clients and their tenants. We provide a flexible approach and engagement which we have found to be vital in this industry.

- We are registered by Registrar of Companies with a valid Certificate of Registration and CR12 as attached.
- We are registered by Kenya Revenue Authority (KRA) as a Tax Payer with a valid Personal Identification Number Certificate as attached.
- We are in compliance with Kenya Revenue Authority (KRA) tax obligations as per Valid Tax Compliance Certificate as attached.

## OUR ENVIRONMENTAL POLICY

As responsible company and Faison Company Ltd recognise the critical and fragile nature of the environment and acknowledge the significant way that the building-construction can affect the physical nature of the landscape, the air quality and the quality of the rivers and streams and the responsibilities that it places on us.

To achieve this, the company implements the following policies:

- Implement these measures for control of all aspects of risk, physical materials, water and air prior to commencement of construction.
- Take measures to maintain features and vegetation as best as possible.
- Be aware of legislation and Industry best practice.
- Consult with specialist consultants for site specific problems.
- At all times be pro-active in anticipation of potential hazards.
