

LEMARC

TECHNICAL SERVICES LTD
COMPANY PROFILE

ABOUT US

INTRODUCTION

Lemarc Technical Services Ltd is a locally registered company successfully delivering projects in diverse market segments. The company has earned recognition for undertaking projects, while making a difference for their clients and employees.

With a dedicated and competent team, Lemarc Technical Services Ltd prides itself in completing construction projects timely and offer clients the accessibility and support of project execution with the stability of resources and personnel.

WHO WE ARE

Lemarc Technical Services Ltd consists of dedicated professionals in the construction industry keen on maintaining professionalism and honesty in their respective disciplines.

Our portfolio is testament to the fact that like minds given appropriate resource and creative space, produce impressive results.

OFFICE

The company's offices are located in Menderes House, 2nd Floor, Room 6.

ABOUT US

OUR VISION

To become a leading reliable and effective partner to all the stakeholders in the construction industry driven by excellence and integrity.

OUR MISSION

We are a market-focused, service-centred company that develops and delivers innovative solutions to our customers, consistently outperform our last project, and provides a dynamic and pleasant work environment for our employees.

CORE VALUES

INTEGRITY

We shall be honest, truthful and reliable in provision of products and services to our customers.

QUALITY

Provide quality solutions, which is essential to customers' growth and retention.

CUSTOMER DELIGHT

We exceed customer expectations with quality products and services to create long lasting relationships.

OUR SERVICES

GENERAL SUPPLIES

Lemarc Technical Services Ltd provides supply of high quality general products sourced from reliable vendors.

MECHANICAL WORKS

Engineering requires an understanding of core concepts including mechanics, kinematics, thermodynamics, materials science, and structural analysis. Lemarc borrows heavily from these core principles along with tools like computer-aided design to aid in construction.

CONSTRUCTION

In the fields of architecture and civil engineering, construction is a process that consists of the building or assembling of infrastructure.

The job is managed by a project manager, and supervised by a construction manager, design engineer, construction engineer or project architect. For the successful execution of a project, effective planning is essential.

ELECTRICAL INSTALLATIONS

Mechanical engineering specialises in two categories of electrical installations mainly: Inside” electrical contractual work to provide electricity to any structure within a property’s boundary lines, including outdoor lighting or substations and Inside” electrical contractual works for low-voltage installations such as back-up power, climate controls, wireless networks, energy-efficient lighting, fiber optics, telecommunications and security systems.

HOW WE WORK

UNDERSTANDING

We believe that the success of any industrial operation lies in the customer experience which is not just a factor of ambiance or service, but the ability to meet the promise of the menu. Hence, the project commences with an understanding of the menu.

KNOWLEDGE

Our team has the unique ability to combine the knowledge of engineering and technology required and has also gained precious insight through experience and interaction with professionals in different capacities from various parts of the country.

IMPLEMENTATION

Lemarc Technical Services Ltd provides a distinct edge to clients in the manner in which we approach the project. We take charge of the entire project and lead all the other civil, mechanical and electrical contractors, taking responsibility for the end product delivered to the client.

QUALITY POLICY

Lemarc Technical Services Ltd is committed to total customer satisfaction. This is achieved through well instituted checks and measures for all aspects of operations including timely delivery and task processing. These checks and measures are further monitored for continuous improvement.

OUR TEAM

Lemarc Technical Services Ltd has been successful in retaining the services of highly respected consultants and subcontractors who have added to our success in delivering quality work.

Our company proudly carries with it a reputation for quality of work with a strong emphasis placed on our attitude and the manner of client relationship. Without this we would not have achieved the level of success we have enjoyed in moving to where we are as a key service provider to the real estate industry.

Our repeat business in this sector is as a result of developing strong working relationships with our clients and their tenants. We provide a flexible approach and engagement which we have found to be vital in this industry.

STATUTORY COMPLIANCES

- We are registered by Registrar of Companies with a valid Certificate of Registration and CR12 as attached.
- We are registered by Kenya Revenue Authority (KRA) as a Tax Payer with a valid Personal Identification Number Certificate as attached.
- We are in compliance with Kenya Revenue Authority (KRA) tax obligations as per Valid Tax Compliance Certificate as attached.

OUR ENVIRONMENTAL POLICY

As responsible company and Lemarc Technical Services Ltd recognise the critical and fragile nature of the environment and acknowledge the significant way that the building-construction can affect the physical nature of the landscape, the air quality and the quality of the rivers and streams and the responsibilities that it places on us.

To achieve this, the company implements the following policies:

- Implement these measures for control of all aspects of risk, physical materials, water and air prior to commencement of construction.
- Take measures to maintain features and vegetation as best as possible.
- Be aware of legislation and Industry best practice.
- Consult with specialist consultants for site specific problems.
- At all times be pro-active in anticipation of potential hazards.
